

Morpho - Bug #1778

Network icons missing after synchronizing

11/18/2004 05:05 PM - Andrea Andrea

Status:	New	Start date:	11/18/2004

Target version:	Postpone	Spent time:	0.00 hour
Bugzilla-Id:	1778		

Description

When you place a dp on the network using the "synchronize" command, it reaches the network, but the network icon is missing in 1. the upper-right corner of the dp display in morpho, 2. the "open an existing dp" results box, and 3. the search results box.

If you put a dp on the network by saving to the network, the network icon shows up everywhere they are supposed to.
