Description

When you open the Intro to Metadata document under the Help menu, the Print option under the File menu is not available. There is thus no way of printing this document.

History

#1 - 12/14/2004 02:06 PM - Saurabh Garg

Moved Intro to Metadata to Morpho help system. Also added an entry for EML Specfications to the Help menu. So now there is print option avaiable for Intro to Metadata.

Once this change is accepted,
morpho\src\edu\ucsb\nceas\morpho\framework\HelpMetadataIntroCommand. java can be removed as it is redundant.
