Metacat - Bug #1818

clarifications for DR entry form page

12/07/2004 03:06 PM - Andrea Andrea

Status:	Resolved		**Start date:**	12/07/2004
Priority:	Normal		**Due date:**

Category:	registry		**Estimated time:**	0.00 hour
Target version:	1.5		**Spent time:**	0.00 hour
Bugzilla-Id:	1818			

Description

1. The entry form page uses the term "registry" toward the top, when it should
be "repository".

2. It should be clear early on (before a user begins to enter metadata) that a
KNB username and password will be needed. I think it should say this at the top
of the page.
