Description

I created three DPs for which I had set the Access Permissions so the public
would be denied access and I (uid=connolly,o=NCEAS,dc=ecoinformatics,dc=org)
would be allowed to read. When I tried accessing the data from the KNB web site
(after I logged in as uid=connolly,o=NCEAS,dc=ecoinformatics,dc=org), I got a
message saying "User public does not have permission to read the document".

This is not a Morpho problem but a problem on the KNB skin.

#2 - 04/01/2005 12:23 PM - Saurabh Garg

Changing the target milestone to release 1.6. Cant be included in 1.5 which has
to released soon.
