Bugzilla-Id:	1829		

Description

Intermittently, when you save a workflow with data that's been dragged from the data tab, when you close then reopen the workflow, you get an NPE which is source in the EML200DataSource.initialize() line 316. This might be a bug in caching.

History

#1 - 01/03/2005 04:37 PM - Jing Tao

Code was added to make sure check the resultset is null in EML200DataSource class

#2 - 03/27/2013 02:18 PM - Redmine Admin

Original Bugzilla ID was 1829
