#### Description

users have requested a "save as" function in morpho so they can just change small numbers of metadata fields for entering similar datasets. I think the code already exists to do this because morpho will reassign package id's if it finds a conflict. we just need to make this functionality accessible via a menu.

#### History

##### #1 - 02/18/2005 03:25 PM - Veronique Connolly

This was also suggested by participants of the February 2005 KNB workshop (as reported in Laura Downey's Morpho Usability Report).

##### #2 - 06/22/2005 03:22 PM - Saurabh Garg

I think I have added comments regarding this under some other bug also. First version of Save as is in Morpho now. Based on the review on that, we can improve in the release 1.7.

##### #3 - 11/05/2010 10:06 AM - ben leinfelder

This can be achieved using the "Save Duplicate" menu option. There is an odd warning that pops up when you do this - I will try to track it down to see if it can be avoided. But the saving seems to work.
