Description			
Morpho does not compile under jdk1.5.0, because the variable name "enum" is used in several places, and, as of release 1.5, 'enum' is a keyword, and may not be used as an identifier			
Fix should be as simple as replacing these variable names...			

History

#1 - 02/22/2005 03:22 PM - Matthew Brooke

replaced all variables named "enum" with "enumeration"
