Bugzilla-Id:	1866		
Description			
<ul style="list-style-type: none">• Make JSP with a 4-column table **filename, timestamp, notes, status• Use this JSP as the result of a plot upload• Also link to it from user's account page			

History

#1 - 02/06/2005 06:44 PM - P. Anderson

DisplayDataset.do requires that a user be logged on and uses web/views/userdataset_detail.jsp to show ALL datasets. It could easily be modified to show datasets of different types other than "load."
