Kepler - Bug #1901

Documentation system

01/21/2005 11:05 AM - Ilkay Altintas

Status:	Resolved		**Start date:**	01/21/2005
Priority:	Immediate		**Due date:**	
Assignee:	Ilkay Altintas		**% Done:**	0%
Category:	general		**Estimated time:**	0.00 hour
Target version:	1.0.0alpha5		**Spent time:**	0.00 hour
Bugzilla-Id:	1901			

Description

1. Ilkay: Documentation system (Chad helps from SEEK side)
     - Includes way to serialize docs for atomic and composite actors (and
       directors, and utilities, etc)
       o Possible way to put this documentation as linked annotations right
       on the canvas

Related issues:

Is duplicate of Kepler - Bug #1900: Documentation system	**Resolved**	**01/21/2005**

History

#1 - 01/21/2005 11:05 AM - Ilkay Altintas

- Overall user guide (need a scientist to do this, not a devloper; possibly
  hire a student; Ilkay's student; Samantha)
  o How-to manuals chapters for specific computational tasks (patterns
  of use) (for example, how to do iteration in a workflow)
  o Samantha, Rod: Introduction to how you build workflows (tutorial
  style; instant gratification guide)

#2 - 01/21/2005 11:06 AM - Ilkay Altintas

- All developers: Actor specific, automatically-generated actor documentation
  o (quick sentence description, multi-paragraphs, categorization, port
  signatures); use different parts of this for different parts of generated
  documentation   * Ilkay: FAQ for users

#3 - 01/21/2005 11:45 AM - Ilkay Altintas

- Bug 1900 has been marked as a duplicate of this bug. ***

#4 - 01/26/2005 04:57 PM - Ilkay Altintas

Please see http://kepler-project.org/Wiki.jsp?page=KeplerDocumentationFramework

#5 - 01/26/2005 06:03 PM - Matt Jones

Nice job. I annotated the wiki page with additional comments -- when other
comments are in, could you integrate them into the draft Ilkay?

#6 - 07/05/2005 02:29 PM - Chad Berkley

At the june 05 kepler meeting, we decided that ilkay would come up with a format
for actor man pages along with doc sections for 3 example workflows (helloworld,
R->plot, and dataset extraction). Ilkay is charged with coming up with the new
man page format and sam and laura are charged with creating the example WF pages.

#7 - 10/17/2005 10:52 AM - Ilkay Altintas

Done items:

- Includes way to serialize docs for atomic and composite actors (and
  directors, and utilities, etc)

o Possible way to put this documentation as linked annotations right
on the canvas
THIS WAS DONE USING XSLT. WE STILL NEED TO ADD THIS DOC AS A TIP ON THE ACTOR.

- Overall user guide (need a scientist to do this, not a devloper; possibly
  hire a student; Ilkay's student; Samantha)
  SAMANTHA AND NANDITA HAS WORKED ON THIS.
  o How-to manuals chapters for specific computational tasks (patterns
  of use) (for example, how to do iteration in a workflow)
  THIS IS AN ACTION ITEM FOR FUTURE.
  o Samantha, Rod: Introduction to how you build workflows (tutorial
  style; instant gratification guide)
  SHOULD BE DONE IN THE MANUAL BY SAMANTHA.

All developers: Actor specific, automatically-generated actor documentation
o (quick sentence description, multi-paragraphs, categorization, port
signatures); use different parts of this for different parts of generated
documentation
HAS TO BE DONE IN THE KAR FILES USING THE NEW FORMAT. WE NEED TO
GENERATE THE FORMAT AS A START AUTOMATICALLY FROM THE ACTOR CODE.   * Ilkay: FAQ for users
DONE. Needs to evolve.

--At the june 05 kepler meeting, we decided that ilkay would come up with a format
for actor man pages along with doc sections for 3 example workflows (helloworld,
R->plot, and dataset extraction). Ilkay is charged with coming up with the new
man page format and sam and laura are charged with creating the example WF pages.

```
WE'LL UPDATE WHAT MATT HAS PUT TOGETHER AND ALSO GENERATE DOC TEMPLATES FOR
3 EXAMPLE WORKFLOWS. Then we'll let Samantha and Laura know to put it documentation.
```

I'LL CREATE A NEW BUG FOR THE NEW ACTION ITEMS. SO THIS BUG IS CLOSED NOW.
