Kepler - Bug #1912

cleanup ImageJ actor to avoid multiple copies of menus

01/24/2005 10:27 AM - Dan Higgins

Status:ResolvedStart date:01/24/2005Priority:NormalDue date:Assignee:Dan Higgins% Done:0%Category:generalEstimated time:0.00 hour

Target version: 1.0.0alpha6 Spent time: 0.00 hour

Bugzilla-ld: 1912

Description

The ImageJ actor needs to be better integrated into Kepler. Currently, the control/menu screen is just opened from ImageJ code and multiple copies may appear if not explicitly closed. Also, closing one of multiple images sometimes crash kepler.

History

#1 - 02/09/2005 01:18 PM - Dan Higgins

The code for interacting with ImageJ has been cleaned up and bugs fixes. It seesm to be more stable now and multiple copies no longer appear.

#2 - 03/27/2013 02:18 PM - Redmine Admin

Original Bugzilla ID was 1912
