

Jalama - Bug #1941

Data Collection Output Should be a Complete EML Document

02/01/2005 08:33 PM - Matthew Brooke

Status:	Resolved	Start date:	02/01/2005

Target version:	1.0.0beta1	Spent time:	0.00 hour
Bugzilla-Id:	1941		
Description add original EML document around collected datatable fragment, so output of data collection is a complete EML document, instead of just the fragment, as is currently the case. This can be done by servlet when user hits finish. EML should then be saved to disk automatically, without user intervention, ready for upload to workstation.
