if name in USDA2002 and 2000, then update reference to 2000. For those not
found, then we deal with those minimal items updated.

If can't get USDA 2000 list, talk to Bob

The initial diff is done, and only about 55 plants differ. Sent email to Bob
with details, which I also attach to this bug. How to deal with differences?

#3 - 03/19/2005 03:16 AM - Michael Lee

nevermind, not attaching, as it's annoying to attach binaries in Bugzilla.
Instead, the file can be found here:

the differences have been passed to Bob and Michael is waiting for further
instruction on them.

I'm not sure if we still want to do this. We need new concepts, not old ones.
