

Metacat - Bug #2082

Use of INSTR in SQL statements.

Description

INSTR is not a function in Postgres. And it is used by Metacat code at 2-3 places. e.g. in DBUtil.java in getMaxDocid()

```
"SELECT docid, rev, SUBSTR+1)+0 acc FROM  
xml_documents WHERE docid LIKE ? ORDER BY acc DESC"
```

Usage of INSTR has to be removed from the code.

Chris reported this.
