Bugzilla-Id:	2087		
Description			
start jalama on client, choose a UI and hit start. Collect data and hiot finish. close this window. go back to homepage and select same UI again, and hit start. window pops up showing a xul error			

History

#1 - 06/06/2005 05:37 PM - Matthew Brooke

this is because EMLInlineData object creates a new renderer and sets wrong XBL root

#2 - 06/08/2005 01:23 PM - Matthew Brooke

fixed - was because EMLInlineData class was creating a new testrenderer instead
of using existing httprenderer
