Bugzilla-Id:	2145		
Description The Kepler ontology storage system needs 1) an API for accessing ontology repositories 2) static copies of ontologies 3) keyword search mechanism			

History

#1 - 11/02/2005 01:35 PM - Matt Jones

This ontology storage system would be useful but will not make alpha8, so moving target.

#2 - 04/03/2009 01:51 PM - Chad Berkley

I don't think this functionality is currently needed in kepler.
