<b>Bugzilla-Id:</b>	2161		

#### Description

Some programs balk at lines with adjacent commas:

```
PLOT1,Acer,,,25%
```

So some people would like it to read:

```
PLOT1,ACER,null,null,null,25%
```

This COULD be configured (as null) in the SQLStore table, but then it would not be configurable. Other option is to postprocess the data and parse it, replace missing values with conifured value, then send to user.

#### History

**#1 - 07/20/2005 06:08 PM - Michael Lee**

PMark and I fixed this today.

**#2 - 03/27/2013 02:19 PM - Redmine Admin**

Original Bugzilla ID was 2161
