<b>Target version:</b>	1.7	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	2186		

#### Description

Currently, the spatial elements displayed within the Metacat spatial viewer are lacking the standard information needed for geographic presentations. The information below should be available for display within the Metacat spatial viewer:

Title  
Legend  
Scale  
Contour Intervals  
Source

... and there are probably others.

#### History

##### #1 - 07/31/2006 11:54 AM - Matthew Perry

See bug 2189

##### #2 - 07/31/2006 11:56 AM - Matthew Perry

This will be handled in the mapbuilder configuration files which can be customized for each skin.

##### #3 - 07/31/2006 12:00 PM - Matthew Perry

Changed title from 'Query results returns more info' which really didn't reflect the purpose of the bug which was more dealing with the html mapping interface and its various components. These are all handled via mapbuilder configuration now so this can be considered closed.
