

Kepler - Bug #2192

Improve QuickSearch results from Digir

09/08/2005 09:50 AM - Kevin Ruland

Status:	Resolved	Start date:	09/08/2005
Priority:	Normal	Due date:	
Assignee:	Chad Berkley	% Done:	0%
Category:	interface	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2192		
Description			
Implement two improvements to the returned results from Digir QuickSearches.			
- Ignore case of scientific name when partitioning records into subsets.			
- Sort the results by scientific name alphabetically.			

History

#1 - 09/08/2005 09:51 AM - Kevin Ruland

- Removed unused code controlled by "useCache" flag from getDigirResourceName.
- Changed addResultSetByScientificName method to fold case of scientific name matches and populate the resultList in alphabetical order. This results in the QuickSearch returning fewer different categories because of case differences and presenting the results alphabetically.

#2 - 09/08/2005 02:29 PM - Matt Jones

Committed patch to kepler. Verified that DC search and actor still works and produces lat/lon data for a search on Mephitis. Closing bug.

#3 - 03/27/2013 02:19 PM - Redmine Admin

Original Bugzilla ID was 2192
