Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2196		
Description			
Multiple changes to these files needed for bug fixing and reducing dependencies on seek classes.			

History

#1 - 09/13/2005 09:00 AM - Kevin Ruland

Changelog for DarwinCoreDataSource.java:

- Removed unused imports.
- Initialize `_outputType` to `_ASFIELD`, and removed the `_NOPORTTYPE`. This simplifies the code because `_outputType` is now always a valid value.
- Change initial cached object (`_cachedDataItem`) to use `EcogridQueryDataCacheItem` instead of `EcogridDataCacheItem`.
- Changed `attributeChanged()` method to use ecogrid query format instead of digir query formats.
- Localized the `_resultSetType` and `_records` datamembers to function scope.
- Changed `getInitFromData()` member function to `isInitFromData()` which performs the magic string compares.
- Rewrote `transformResultSet()` to reduce indentations and improve readability.
- Removed unneeded function `getProviderList()`.
- Rewrote `complete()` to reduce indentation and improve readability. Removed use of `DigirJavaToEcogridJavaResultSetTranformer` object because the underlying data cache object is `EcogridQueryDataCacheItem`.

Changelog for DarwinCoreMetaDataSpecification.java:

- Rewrote `addResultSetByProvider()` to reduce indentation and improve readability.
- Fixed bug in `addResultSetBySpecies` to set `searchData` field to `scientificName` instead of the general search term.

#2 - 09/13/2005 02:12 PM - Kevin Ruland

kruland committed these changes.

#3 - 03/27/2013 02:19 PM - Redmine Admin

Original Bugzilla ID was 2196
