Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2202		

Description

When you choose "Enter Year Only" for Temporal Coverage (either in the NDPW or from the Documentation menu), what gets displayed in the data package is 1 January of the year you entered (e.g., 2005-01-01). Only the year in the yyyy format should be displayed.

History

#1 - 09/30/2005 04:29 PM - P. Anderson

Well I fixed one part of this problem but now a bunch of other issues are present. The Temporal Coverage window's radio buttons are not being preselected properly on edit, which is affecting the display of the date which is now correctly stored in the EML.

#2 - 10/04/2005 05:16 PM - P. Anderson

Fixed.
Now correctly formats and displays YYYY-MM-DD or YYYY dates.
