Target version:	Beta2	Spent time:	0.00 hour
Bugzilla-Id:	222		
Description			
Need to test Morpho and the Morpho Installer on MacOS and MacOS X.			

History

#1 - 07/12/2001 05:11 PM - Matt Jones

Changed milestone for a number of morpho features that will not be able to be completed by Beta 1 (ESA). Delaying these features to Beta 2.

#2 - 10/16/2001 08:00 PM - Matt Jones

Need closure on this by Nov. 1 so reassigned to higgins.

#3 - 11/02/2001 02:46 PM - Dan Higgins

A version of Morpho Beta1.3 has been created which works under Java 1.1.7 JVM - separate branch in CVS.

Mainly involved removing new calls specific to Java collections classes. Minor functionality related to menu accelerators commented out (and ability to save queries)

Max X not yet tested.

#4 - 11/30/2001 02:26 PM - Matt Jones

Use a jvm/os detector from system.properties to turn off some code for OS9. Put up a warning dialog saying they should upgrade their Java to 1.3.

#5 - 12/13/2001 05:08 PM - Dan Higgins

JVM/OS system detector and warning implemented. Current 1.3 code tested on Mac OS 9. A few functions do not work on OS9 (e.g. saved queries in menu) but do not crash program.
