Bugzilla-Id:	228		

Description

Need an approach for an architecture for the data integration engine that considers the requirements as specified in bug 227. This is an overall architecture request, with some specification of how the system might interact with Metacat to retrieve metadata and data, and the ways in which a "guided" integration might be accomplished.

History

#1 - 02/12/2002 04:26 PM - Matt Jones

This should be considered part of the design of the analytical engine, and I am considering eliminating the data integration product all together.

#2 - 01/10/2003 09:56 AM - Matt Jones

Probably postponed indefinitely.

#3 - 06/14/2004 02:25 PM - Chad Berkley

this work has been brought into SEEK
