

Kepler - Bug #2332

MENUS: Top-Level Menu - link ptii enabled/disabled listeners

01/18/2006 02:08 PM - Matthew Brooke

Description need to link enabled/disabled listeners to old menu items, so state of new ones mirrors state of old ones in real time. This may not be needed for ptii items that have Actions; however, not all of them do - some just had ActionListeners assigned.

History

#1 - 02/17/2006 06:35 PM - Matthew Brooke

ptii menus didn't do enabling/disabling - so this isn't an issue. There's a separate bug (Bug [#2359](#)) for implementing enable/disable in new kepler menus and toolbars
