Category:	interface	Estimated time:	0.00 hour
Target version:	3.X.Y	Spent time:	0.00 hour
Bugzilla-Id:	2337		
Description			
Have now got most of menus loading from a properties file. However, several things yet to do, and several bugs to fix - see dependency tree. Replaces part of Bug #2016 See menu redesigns at: http://kepler-project.org/Wiki.jsp?page=MenuAndToolBarReDesign

History

#1 - 02/21/2006 12:32 PM - Laura Downey

updated terminology for Run Window (now Runtime Window) and for Run with Feedback (now Animate at Runtime). This was done to keep some consistency with phrasing (using some form of "run" when referring to a workflow executing), to address the adjective/verb issue with "Run Window," and to address opposition to the term "feedback." Notes made on Wiki, but images not yet updated.
