

Kepler - Bug #2354

Need to Rebuild older workflows so that kars can be created

Description

Older workflows (one built before the kar system was added) should be rebuilt so that additional moml data is included. Otherwise, attempts to build kar files from these workflows will have problems.

This is especially an issue with some of the example RExpression workflows

Note: this may be a problem if someone tries to save part of Ptolemy workflow!

History

#1 - 03/01/2006 09:59 AM - Dan Higgins

RExpression workflows have been rebuilt so that the actors can be added to the kar system. Probably need to check all actors at some point; will add new bug if problems located.
