

Kepler - Bug #2358

need to add "..." to appropriate menu items

02/16/2006 09:04 AM - Laura Downey

Description

I have just noticed that I didn't add the standard "..." to menu items that bring up a dialog box or require some user input etc before proceeding. For example, "Open File" should be "Open File..." because a dialog box appears upon selection of that menu item. This bug is to list and track those menu items that need to be modified. When I've updated the gifs on the wiki, that will be noted here.

Laura -

You can fix these yourself if you want - it's very easy - all you have to do is edit the text file:

`kepler/configs/prolemy/configs/kepler/uiMenuMappings_en_US.properties`

and add the dots where needed. That file includes full instructions in the comments at the beginning

Probably quicker then writing the bug details ;-)

#2 - 02/21/2006 12:17 PM - Laura Downey

Ellipses have been added for the following items:

- Open File
- Open URL
- Save As
- Print
- Runtime Window
- Animate at Runtime

Notes added to the wiki page but images not yet updated.
