

## Kepler - Bug #2367

### MENUS: Context Menus - Additional context menu designs needed

02/23/2006 04:23 PM - Matthew Brooke

<b>Status:</b>	New	<b>Start date:</b>	02/23/2006
<b>Priority:</b>	Normal	<b>Due date:</b>	
<b>Assignee:</b>	Laura Downey	<b>% Done:</b>	0%
<b>Category:</b>	interface	<b>Estimated time:</b>	0.00 hour
<b>Target version:</b>	3.X.Y	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	2367		
<b>Description</b>			
more context menus in the old kepler/ptii UI, for which we don't yet have new designs. It may be that some of these will use the designs we already have on the wiki, but we need to make a decision one way or another			
To see them, right click on:			
<ul style="list-style-type: none"><li>• link/relation (the lines connecting actors - we already talked about this. currently has: configure)</li><li>• ports on an actor - (currently has: configure, customize name, documentation, send to back, bring to front, Listen to port)</li><li>• ports added by using menu "Workflow-&gt;add port-&gt;" or by clicking add port buttons on toolbar. right clicking on new port gives popup menu (currently has: configure, customize name, documentation, send to back, bring to front)</li><li>• Relation added by using menu "Workflow-&gt;add relation" or by clicking add relation button on toolbar. right clicking on new diamond-shaped relation gives popup menu (currently has: configure, get documentation)</li><li>• parameters - listed in actor library tree, under Keper Actor Ontology-&gt;Workflow Component-&gt;Parameter (currently has: configure, customize name, documentation, send to back, bring to front)</li></ul>

### History

#### #1 - 03/01/2006 11:58 AM - Matthew Brooke

Also need to revisit context menu designs after looking at the latest "as-is" screenshot at:

[kepler-docs/dev/usability/screen\\_designs/curr-rcms\\_022306.png](#)

In particular, we should double-check that we're incorporating **all** the existing menu items, either in the right click menus or elsewhere in the dialogs etc, since some have been added since the original new designs were done

#### #2 - 05/26/2006 10:15 AM - Matthew Brooke

Laura -

For the 1.0 release, once you have checked the current right-click menus in the nightly build, you can change the entries if necessary (add or remove entries, or change names) by editing the file:

`kepler\configs\ptolemy\configs\kepler\uiContextMenuMappings_en_US.properties`

The beginning of that file has full documentation

#### #3 - 12/10/2007 01:35 PM - Dan Higgins

I am moving suggested interface changes to beyond a 1.0 release. (basically because no work has been done.)

Dan Higgins
