Description			
<p>Need to remove svg icon and thumbnail icon properties from workflow MOML files in the kepler/workflows directory. The specific text to remove in each case is all occurrences of:</p>			
<pre><property name="_svgIcon" class="some.class.name.Here"> <configure>/svg/IconNameHere.svg</configure> </property> <property name="_thumbnailRasterIcon" class="some.class.name.Here"> <configure>/actorthumbs/IconNameHere-sm.gif</configure> </property></pre>			
<p>NOTE - don't just cut and paste the above text - you need to replace "some.class.name.Here" and "IconNameHere" with the real values :-)</p>			

History

#1 - 05/26/2006 10:44 AM - Matthew Brooke

Reassigned to Dan, and changed category to General (not UI, but wasn't sure which category "workflows" belongs to)

#2 - 12/10/2007 01:37 PM - Dan Higgins

This has been done for all 'demo' workflows
