Kepler - Bug #2376

Survey actors for those that need to handle 'nil' values

03/01/2006 02:04 PM - Dan Higgins

Description

With the addition of 'nil' values for tokens, there comes the question of how existing actors response to 'nil' inputs. Does this create a problem? Does the actor need to be rewritten to use the nil input?

This 'bug' is really a survey of how actors will respond to nils (ie actors other than RExpession which is already set to handle such nils).
