

Morpho - Bug #2411

physical element of dataTable element should be optional

04/11/2006 04:29 PM - Will Tyburczy

Target version:	1.8.1	Spent time:	0.00 hour
Bugzilla-Id:	2411		
Description			
Currently, any data package containing a dataTable element which does not itself contain a physical element will not open properly in Morpho. When attempting to open, several error boxes with the message "physical list is null!" will appear, after which the window where the dp would open will simply remain gray with the butterfly flapping indefinitely. The physical element is optional in EML, so Morpho should be able to open these dp's.
