VegBank - Bug #2424

new feature: Create "find plots by area" using google maps

04/24/2006 01:15 PM - Michael Lee

Status:	Resolved		**Start date:**	04/24/2006
Priority:	Normal		**Due date:**	
Assignee:	Michael Lee		**% Done:**	0%
Category:	website		**Estimated time:**	0.00 hour
Target version:	UnMilestoned		**Spent time:**	0.00 hour
Bugzilla-Id:	2424			

Description

User could then establish an area, and an ajax call would figure out how many VegBank plots are in the map area each time the bounds change. User could press a button to display the plots, or they could be displayed automatically (depending on how many plots...)
