Description

When users click the "submit data" button on the header of any page in VegBank, they should be checked for certification then, not after they upload a package of XML as is now the case.

That is, the check appears here:

<http://aldo.vegbank.org/vegbank/UploadPlot.do>

but not here:

<http://aldo.vegbank.org/vegbank/DisplayUploadPlotAction.do>

fixed by replacing three characters with four different ones in the struts-config file. If only all bugs were so easily fixed...
