<b>Bugzilla-Id:</b>	2549		
<b>Description</b>			
Until we implement a feasible wms feature filter ( bug 2548 ) we must only put publically readable documents in the spatial cache.			

#### History

##### #1 - 09/13/2006 12:23 PM - Matthew Perry

Updated SpatialHarvester.queryAllDocids(). Now uses the xml\_access table to generate a list of public-readable docids to be inserted into the spatial cache.

##### #2 - 09/13/2006 05:09 PM - Matthew Perry

Changed severity to 'major' .. mostly because its already fixed and I don't like seeing bold red text in my bug list!

##### #3 - 03/27/2013 02:20 PM - Redmine Admin

Original Bugzilla ID was 2549
