Bugzilla-Id:	2573		
Description			
Currently data manager library can load text data, both simple delimited and complicated text format(e.g. fixed width), into relational database. We want a new feature - this library can handle binary data file format (e.g. excel) too.			

History

Excel:

-would this be limited to a single sheet workbook?

-would we use apache's POI library for extracting the data?

Spatial data?
