Description

If I go to a large family like Poaceae I see 10 pages and a next at the top right of the list of taxa. However, when I pick a larger number than page 1 the options do nto change. This is a bother when I am at page 10 and my only choice is next but I want to jump deeper into the pile than 11.

History

This bug is originally from "other ideas and observations from Peet and Weakley"

#2 - 11/05/2006 11:16 AM - Xianhua Liu

I am not quite sure about this requirement. My understanding is that when you click the "next" link, you wnat the next 10 pages instead of the next page should show up, right?

#3 - 11/05/2006 10:56 PM - Robert Peet

that would solve the problem

#4 - 11/08/2006 07:56 PM - Xianhua Liu

fixed

#5 - 11/08/2006 11:29 PM - Robert Peet

bug resolved
