

Morpho - Bug #263

editor fails to create some CHOICE content models

07/30/2001 05:49 PM - Matt Jones

Status:	Resolved	Start date:	07/30/2001
Priority:	Immediate	Due date:	
Assignee:	Dan Higgins	% Done:	0%
Category:	morpho - general	Estimated time:	0.00 hour
Target version:	Beta2	Spent time:	0.00 hour
Bugzilla-Id:	263		
Description			
<p>The Morpho editor has trouble representing some CHOICE content models for editing properly, likely those that have multiple levels of nesting. For example, in eml-physical.dtd, the following content model is not handled properly in the editor:</p> <pre>(fieldStartColumn?, (fieldDelimiter fieldWidth))*</pre>			

History

#1 - 08/09/2001 02:52 PM - Dan Higgins

Previous versions had problems with nested, unnamed sequences and choices within dtd content declarations. This was corrected by adding sequence nodes to tree display

#2 - 03/27/2013 02:13 PM - Redmine Admin

Original Bugzilla ID was 263
