Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2683		
Description			
We should probably add a tool so that additions can be submitted by users. At a minimum we should provide a template that they can fill out and submit to us.

Hi Robert! -- nice to hear from you! And that you are enjoying semi-retirement!

^

I am surprised by the skunk cabbage; is it the same location as on our website (see below). And the others are nice records too.

We really need a means for people to report new county records, ideally with specimen or photographic documentation. ^

Check out our new distribution data part of our website: <http://www.herbarium.unc.edu/seflora/firstviewer.htm>

Maybe we could add some sort of module allowing reporting of records.
