

Kepler - Bug #2706

Compile failure under Java 1.6 in DBConnection class

12/17/2006 02:46 PM - Dan Higgins

Target version:	1.0.0rc1	Spent time:	0.00 hour
Bugzilla-Id:	2706		

Description

org.ecoinformatics.util.DBConnection is "a simple wrapper around a java.sql.Connection." However, the Connection class has some added methods in the newly released Java 1.6. This causes the error

```
[javac] C:\work\kepler\build\src\org\ecoinformatics\util\DBConnectionFactory
.java:74: org.ecoinformatics.util.DBConnection is abstract; cannot be instantiat
ed
```

```
[javac]     return new DBConnection(conn);
```

```
[javac]         ^
```

when Kepler is compiled under Java 1.6.

Need to wrap additional 1.6 methods but still insure the code works for java 1.5 and below!

History

#1 - 01/17/2007 04:07 PM - Dan Higgins

Currently need to include a few commented out lines in DBConnection when compiling under 1.6; a version compiled and saved under 1.5 will run under 1.6 OK.
