Bugzilla-Id:	2715			

Description

Currently the relationship table has
555 ? relationships
128 <= relationships
1044 >= relationships.

We need to work through the inference rules, fix those we can fix, and pass on to Alan the relationship problems that stem from his flora.

History

#1 - 03/31/2007 09:53 AM - Robert Peet

<= relationships now gone.

I will generate a new bug for Xianhua for the >= relationships.

I will pass the 555 ? relationships to Alan as a spreadsheet for guidance/resolution.
