Blocks Metacat - Bug #272: install production root LDAP server	**Resolved**	**08/31/2001**

History

#1 - 10/16/2001 10:46 PM - Matt Jones

This feature is important, and our goal is to have it fully functional with the
new version of metacat and morpho by November 1, 2001. It should be integrated
via referral withthe NCEAS installation of LDAP, so refer to bug #272

#2 - 01/16/2002 03:14 PM - David Blankman

Passwords synchronized between Personnel database and ldap server. About 700 people in the LTER
database did not have password. Have updated their records so that the LDAP passwords created for
them are now availble to be emailed to them by existing "mail me my password" mechanism in LTER
intranet page.

Is this complete, David? If so, please close the bug or comment on what needs
to be finished. Thanks.

#4 - 08/27/2002 10:16 AM - David Blankman

This has been completed, although platform is now linux rather than Sun.
