

InfoVeg - Bug #2810

Print function for maps does not work

04/05/2007 12:19 PM - Robert Peet

Status:	Closed	Start date:	04/05/2007
Priority:	Immediate	Due date:	
Assignee:	Xianhua Liu	% Done:	0%
Category:	atlas	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2810		
Description			
If in IE6 you click the printer icon under a map the program starts to generate a new map and never finishes. In contrast, if you click the printer icon in FoxFire 2, the program starts to generate a new map and then quits. This function needs to be fixed for both browsers.			

History

please set the IE or other browser to allow popups from www.herbarium.unc.edu

#2 - 05/09/2007 04:45 PM - xianhua liu

This problem can be resolved by setting the IE or other browser to allow popups from www.herbarium.unc.edu

#3 - 05/14/2007 03:34 PM - Robert Peet

This needs to be documented on the site.

Can we embed a note about the need to allow popups next to the printer icon?
Otherwise perhaps a balloon with next opens when you hover over the printer icon.

Added notes beside the print icon as '(To print, popups should be allowed from seflora website)'.
(Note: 'seflora' is misspelled as 'seflora' in the original text)
