

## InfoVeg - Bug #2815

### remove user\_entry table and use party instead

04/09/2007 01:13 PM - Michael Lee

<b>Status:</b>	Resolved	<b>Start date:</b>	04/09/2007
<b>Priority:</b>	Normal	<b>Due date:</b>

<b>Target version:</b>	x2007-June	<b>Spent time:</b>	0.00 hour
<b>Bugzilla-Id:</b>	2815		
<b>Description</b>			
Using the party table will better facilitate users in the database and not require users to enter themselves twice. Will need to add initials field to party for this.

I should do this next.

**#2 - 04/20/2007 10:49 AM - Michael Lee**

This will cause some problems for the importing tool.

**#3 - 04/20/2007 11:16 AM - Michael Lee**

included special set of instructions for databases that are pre 2.0.6 on import.

**#4 - 04/20/2007 11:43 AM - Michael Lee**

importing from older databases now works OK. Entry works fine, too without user\_entry. I never liked my name for that table, anyway, so I'm glad it's gone for that reason, too. Best reason is that we don't have 2 tables to track similar data (party/users)
