

NRS Information System - Bug #283

registration process scalability

09/25/2001 04:16 PM - Matt Jones

Status:	In Progress	Start date:	09/25/2001
Priority:	Normal	Due date:	
Assignee:	Saurabh Garg	% Done:	0%
Category:	Data Registry	Estimated time:	0.00 hour
Target version:	1.1.0	Spent time:	0.00 hour
Bugzilla-Id:	283		

Description

Scalability & maintenance: if successful, Rudolf will not be able to review all submissions to the registry. Need to evaluate and implement alternative mechanisms. The system can enforce validity in only the crudest way (making sure required elements exist), but can't check that the values entered make any sense at all.
