

Kepler - Bug #2850

Better Error message for missing 'R'

05/22/2007 02:02 PM - Dan Higgins

Status:	Resolved	Start date:	05/22/2007
Priority:	Normal	Due date:	
Assignee:	Dan Higgins	% Done:	0%
Category:	actors	Estimated time:	0.00 hour
Target version:	1.0.0rc1	Spent time:	0.00 hour
Bugzilla-Id:	2850		
Description			
If a workflow containing an RExpression actor is executed and R cannot be started from the command line (missing or not in PATH), a cryptic error message like 'The pipe has been ended appears'. Need to catch this error and provide a more meaningful error message (or check for R installation in some other way).			

History

#1 - 08/13/2007 12:20 PM - Dan Higgins

Added more meaningful error message indicating that R has not been installed properly

#2 - 03/27/2013 02:21 PM - Redmine Admin

Original Bugzilla ID was 2850
