

InfoVeg - Bug #2857

Extra message box displayed "About to update 1 row" on startup

06/02/2007 02:03 PM - Michael Lee

Status:	Resolved	Start date:	06/02/2007
Priority:	Normal	Due date:

Target version:	x2007-June	Spent time:	0.00 hour
Bugzilla-Id:	2857		

Description

This happens when confirmations are not yet up. To fix:

```
Public Function configureCancelBackupOnCloseFields(blnBackup As Boolean)
```

```
On Error Resume Next
```

```
'updates the option to not backup (or to allow backups) when database is closed
```

```
'useful to turn this off if compacting db or if backing up now
```

```
Dim rstTemp As New ADODB.Recordset
```

```
rstTemp.Open "SEKLECT * FROM backupOptions;", CurrentProject.Connection, adOpenForwardOnly, adLockOptimistic, adCmdText
```

```
If Not rstTemp.EOF Then
```

```
rstTemp!doNotBackupOnCloseOnce = Not blnBackup
```

```
rstTemp.Update
```

```
End If
```

```
rstTemp.Close
```

```
End Function
```

History

#1 - 06/02/2007 02:05 PM - Michael Lee

also can be resolved by moving backupOnClose function below confirmation settings change. Needs test.

#2 - 06/02/2007 02:51 PM - Michael Lee

fixed v210p7

Access 2000 issues also largely resolved (at least ones that I know about there): listBox source being too large on errorReportingPopup (substitute for a text box)
