Target version:	x2007-Aug	Spent time:	0.00 hour
Bugzilla-Id:	2859		
Description The manual states "The corners ... must be marked with 12" or greater sections of ½" diameter galvanized steel conduit ... larger metal conduit stakes may be used ... The use of PVC or rebar is not acceptable." The manual should be revised to allow rebar if and only if plastic caps are put on the rebar to improve visibility and reduce risk of personal injury.			

History
