<b>Description</b>			
This includes projects 52,59,61.			
OLD entry db -> SAS -> old entry db -> old archive db			

#### History

##### #1 - 08/14/2008 03:42 PM - Michael Lee

project 59 has been completed, and is in the old-archive database, version b2e.

52 appears not to have any entry tool in its folder. That one hasn't been entered yet?

I'm now working on 61, getting it through SAS.

##### #2 - 11/02/2008 01:51 PM - Michael Lee

projects 59 and 61 have been moved through and are in the old archive database version B2g.

I'm pretty sure we determined that 52 would need specific other work.
