

## InfoVeg - Bug #2882

### Entry tool doesn't allow entry of source for "new" stems during monitoring

07/05/2007 10:25 AM - Michael Lee

<b>Description</b>			
When someone is monitoring, they may find stems that were new to the plot. They can enter these as new rows, but the source field is hidden. When a new row is added, source should reappear as an option. Might be difficult to manage, though we could use default values and a new field or something like that, so we'd know what was added in the baseline or later.
