

SANParks Informatics - Bug #2925

Put Delete buttons in the metadata 'Update' form

09/03/2007 05:44 PM - Chris Barteau

Status:	Resolved	Start date:	09/03/2007
Priority:	Normal	Due date:	
Assignee:	Chris Barteau	% Done:	0%
Category:	general	Estimated time:	0.00 hour
Target version:	Unspecified	Spent time:	0.00 hour
Bugzilla-Id:	2925		
Description			
Modify XSLT code to generate a delete button for each file in the Update section of the metadata display. Modify/debug java code to handle the delete calls to metacat. Develop JUnit tests for java methods.			
Modify XSLT file to modify the resulting HTML form for aesthetics. Place the delete buttons next to the Update buttons.

History

#1 - 09/04/2007 06:01 PM - Chris Barteau

Added Delete buttons to each file in the "update section" of the metadata display page. You can delete each individual file (which also updates the metadata document) or you can delete the metadata file, which in turn deletes all the data file dependencies.
