

Kepler - Bug #2941

Command Line Exec Actor throws exception when given input on "arguments" port

09/06/2007 10:17 PM - Dan Homerick

Status:	Resolved	Start date:	09/06/2007
Priority:	Immediate	Due date:	
Assignee:	Daniel Crawl	% Done:	0%
Category:	actors	Estimated time:	0.00 hour
Target version:	1.1.0	Spent time:	0.00 hour
Bugzilla-Id:	2941		
Description			
Providing a constant (string constant or constant) to arguments port generates the exception:			
"Attempt to get token from an empty QueueReceiver in model.Command Line Exec.arguements"			
Additionally, none of the test workflows in kepler/workflow/test/spa test the arguments port.

(In reply to comment #0)

Providing a constant (string constant or constant) to arguments port generates the exception:

"Attempt to get token from an empty QueueReceiver in model.Command Line Exec.arguements"

Additionally, none of the test workflows in kepler/workflow/test/spa test the arguments port.

I should probably note that this is with the Sep 06, 2007 CVS head of Kepler and ptll.

#3 - 01/16/2008 01:25 PM - Daniel Crawl

This has been fixed (as of CommandLineExec.java v1.9) and I've added some workflows to better test this actor.
